

Year 8 Crime Presentations

In this assessment you will be focussing on crime in [Swavesey Village College](#). Initially you will find it difficult to think of a crime in the college but after some thought you will come up with some. You and your team will first select a type of crime found within the college.

After this you will have the opportunity to research more about your crime and perhaps look into some ways that the crime is solved around the world. Once you have pulled together all of your research, you will photograph the crime and prepare a presentation to give to the rest of the class.

Your group must cover the following areas:

- Explanation of the area in the school being studied.
- Explanation of the crime being studied.
- Reasons why you think crime happens here.
- Your assessment of how severe the crime is in this location.
- A set of plans that could be implemented to reduce crime for the future.
- An evaluation of how successful you think your plans would be at reducing crime.

Some Tips:

- ✓ You should expect your presentation to be marked by your peers as well as your teacher so make sure that you put plenty of preparation time into it.
- ✓ Rehearse your presentation so that it appears more professional and more like you understand the problem.
- ✓ Write or type a speech so that you are not left without anything to say when presenting.
- ✓ Distribute roles evenly amongst your group so that there are no members doing nothing or one member doing everything.
